

Permeable Holland

Permeable Holland mimics the popular shape of Angelus' Holland paving stone and is available in either a standard or tumbled texture. This paving stone combines the versatility of a traditional paver with the sustainable design benefits of a permeable paving system. Permeable Holland is ADA compliant and can withstand runoff from any rainstorm.

Note: This product is produced, palletized and sold in a herringbone pattern to facilitate being installed by machine. This results in having approximately 6 sq ft per pallet being half pavers. These half units can be installed along with the full units, used for cuts, or discarded if required due to design considerations.

Stocked Color:

Gray-Moss-Charcoal

Shown: Sand and Moss Permeable Holland installed in a running bond pattern.

NOTE: ALWAYS VIEW PRODUCT SAMPLES PRIOR TO INSTALLATION The color and texture of Angelus products are not specific to any product or groups of products. Variation in color, shades of color, texture, and aggregate exposure is inherent in all concrete products and exact matches cannot be guaranteed. Not all products are stocked in all colors. Charts with more product related color availability are shown from product pages. Colors and textures represented in print and online are as close as possible to the actual product. Photographic techniques, printing techniques and viewing monitors – as well as actual viewing conditions – can alter perception of color.
